Size and Type of Construction

17,000 square feet pre-engineered building

Types of Space

This new facility is the new home of the Parks & Recreation Department for the Town of Framingham. The new space consists of 17,000 square feet of storage and administrative space. The construction includes two buildings that have multi bay storage areas for over 20 trucks & equipment. There is an administrative section for the office personnel, which has employee locker space, men's and ladies rooms, a shower area, a repair shop as well as a construction yard between the two buildings.
